Byomkesh Bakshi is a Bengali Detective who is called upon for a spine-chilling case with his assistant cum friend Ajit. Byomkesh Bakshi investigates the mysterious death of Anadi Haldar, a foul mouthed man with a mysterious past. Byomkesh Bakshi featured in about 32 stories from 1932 to 1970 prior to author Sharadindu Bandyopadhyay’s death. Byomkesh Bakshi is probably first mainstream Indian detective. While reading the stories, it is hard not to spot similarities between Byomkesh and Sherlock Holmes the way the character gets introduced first, the way the narrator Ajit and Byomkesh becom Holmes, "A Study in Scarlet". This quote describes the foundation of Holmes’s deductions. He relies upon having all of the possible information about something before making conjectures about it. By knowing all the details, he can make extended, accurate judgement about things, proving his powers of deduction. The dog attacked Rucastle. Holmes and I rushed out and round the angle of the house, with Toller hurrying behind us. There was the huge famished brute, its black muzzle buried in Rucastle’s throat, while he writhed and screamed upon the ground.... Study Guide for The Adventures of Sherlock Holmes.
