Textbook Companion Websites - Pearson, McGraw-Hill, Sage and several other educational publishing companies offer helpful websites for their textbooks. A significant percentage of major textbook publishers are now offering textbook companion websites to go along with the reading material in their textbooks. Taking a cue from digital learning and online education programs, these textbook companion websites offer interactive resources that a textbook simply cannot accommodate. They also provide students with customized quizzes and extra study materials. Instructors can incorporate the textbook companion websites material into their coursework as required assignments, or offer them as additional activities. Digital tools for making infographics, presentations, videos, animations, as well as tools for assessments, quizzes, and more. Share on Facebook. Share on Twitter. As an interactive whiteboard and screencasting tool, Educreations is an alternative to Explain Everything. Educreations allow you to explain any kind of concept in an interactive digital environment which means you can teach and learn from anywhere. The app allows you to approach each student individually by replaying their work and allowing them to learn at their own pace. There are picture books for students K-5, chapter books for students Grades 5-9, and poetry for everyone. This app develops the ability of the brain to connect words in images. If you are an educator, check out the video below to learn more. Interactive teaching is all about instructing the students in a way they are actively involved with their learning process. There are different ways to create an involvement like this. Most of the time it's through. In this blog post, I will talk about the use of interactive methods for teaching, encouraging more dedication towards the lesson material. We will see some interactive teaching tools, interactive teaching ideas, and interactive teaching games. Not only will I talk about the use of interactive methods of teaching, but I'll also give you some examples of methods used in the present classroom as well. Ready?
