Mixed methods research in library and information science: A methodological review. January 2020. Acquisitions Updates. International Exchange Service. In order to sustain the free flow of government information in the new publishing environment, the Library of Congress has undertaken a project to transform the International Exchange Service (IES) program. The transformation effort expects to embrace the analog and digital publishing environment; to achieve a flexibility sufficient to meet individual country needs in terms of the format of the content delivered to them; to recommend or identify tools to receive, access, archive, preserve, and deliver content received by the Library under The Library Acquisition Patterns (LAP) project was undertaken with the support of The Andrew W. Mellon Foundation with the aim of examining trends in US academic libraries’ book purchasing. The sample of acquisition items is limited to print and electronic books acquired on a one-time, title-by-title basis within a specified price range to mitigate the inclusion of miscategorized items. Most recent year for data, ongoing resource expenditures have skyrocketed amid an increase in average library materials expenditures, even as expenditures for one-time resources like academic books have been in decline since 2012. [5].
