In his critical essay, James Holte builds a case for insanity, arguing that Montresor is, in fact, a sociopath. Holte begins his article by reviewing some of the critical history of the story, focusing on varying interpretations of Montresor’s mental state and motivation. Then, drawing upon clinical definitions of sociopathy, Holte begins developing his case for Montresor’s being a sociopath.

The following critical review, critiques the similarities and differences of three academic journal articles from The Journal of Hospitality & Tourism Management. The selected articles discuss education through tourism, factors that motivate towards it, and the career opportunities within tourism for future generations. Social issues influence people within a society, and people strive to find solutions to them. Often, they are the consequences of factors extending beyond an individual’s control. Social issues are the source of a conflicting opinion on the ground of what is perceived as morally correct or incorrect personal life. These social issues are exceedingly diverse because they exist within the cultural, ethnic, and moral boundaries. There are disagreements around social issues that are worth solving, or that should take precedence. Different individuals and societies have different perceptions. The book also includes a practical guide that incorporates experiences in teaching and how to advise academic and commercial researchers. In addition, Krippendorff clarifies the epistemology and logic of content analysis as well as the methods for achieving its aims.

Today, content analysis has become an efficient alternative to public opinion research - a method of tracking markets, political leanings, and emerging ideas, a way to settle legal disputes, and an approach to explore individual human minds. The Third Edition of Content Analysis remains the definitive sourcebook of the history and core principles of content analysis as well as an essential resource for present and future studies.
